**Stories that
matter.**

DMASS Business is the leading company in production and commercialization of completely organic farm produce. A 100% Mexican enterprise that has become one of the most important benchmarks of garden produce both in the Mexican and international markets.

We have more than 17 years of experience backing us up, but our clients, from North America and Europe to Middle East, are our biggest strength and guarantee our professionalism.

In besides of having more than 200 acres of top quality crops, we also have more than 24 certifications as important as SAGARPA's organic product seal, and others like SENASICA, Bioagricert, Global GAP, amongst others.

We grow the best varieties of avocado, mango, banana, watermelon, papaya, pineapple, melon, lychee, lemon, jackfruit, coffee and sugar, all seasonal farm produce that are always delivered guaranteeing

OUR MISSION

Being a leader company in the production and commercialization of organic farm produce in national and international markets.

We aim to distinguish ourselves for the superior quality of our products and the satisfaction of our clients, building a strong long term relationship with them.

OUR VISION

Increase our leadership in the commercialization of our farm produce, providing a quality service with continuous improvement, expanding our commercial relationships and guaranteeing the satisfaction of your clients.

OUR PRINCIPLES

1 TRUST

We recognize and believe our clients and work team act in good faith.

2 LOYALTY

Committed to serving our clients at all times.

3 PROFESSIONALISM

Achieving it through discipline, trust, and the desire to learn and progress.

4 INNOVATION

Using technological tools that allow us to fully develop our company.

5 TRANSPARENCY

Always acting consistently providing clear and timely information.

SUGAR CHARACTERISTICS

The solid product obtained by crystallization from sucrose ($C_{12}H_{22}O_{11}$) contained in the juices of sugar cane, sugar beets or other plant species through specific and specific industrial processes.

ODOR

The characteristic of sugar, without presenting a musty, fumigant or other strange odor.

FLAVOR

Characteristic sweet, without other strange flavors.

PHYSICAL ASPECT

Crystals.

SUGAR PRODUCT

STANDARD SUGAR

Solid product derived from sugar cane, consisting essentially of loose sucrose crystals, in a minimum concentration of 99.40% polarization. This type of sugar is obtained through a process similar to that used to produce raw sugar (muscovado), applying variants in the clarification and centrifugation stages, in order to obtain the quality of the desired product.

REFINED SUGAR

Solid product derived from sugar cane, consisting essentially of loose sucrose crystals, at a minimum concentration of 99.90% polarization. This type of sugar is sometimes obtained from raw (muscovado) or standard sugar through a refining process.

SUGAR COMPOSITION

STANDARD SUGAR

Color U.I. 600
Humidity% 0,06
Direct reducing sugars% 0.10 Sulfur dioxide (sulphites)
ppm 20.00 Lead ppm 0.50
Arsenic ppm 1.00
Metallic particles (iron) ppm 10.00

REFINED SUGAR

Sucrose 95% min. And anticomcompactante 5% max.
Physico-chemical specifications.

Color U.I. 45.00
Humidity% 0.04
Direct reducing sugars% 0.05
Turbidity U.I. 25.00
Sulfur dioxide (sulphites) ppm 15.00
Insoluble matter ppm 20.00
Lead ppm 0.50
Arsenic ppm 1.00
Metallic particles (iron) ppm 10.00 Potential floc U.A. 0.14

SUGAR **PACKAGING**

Package in 50 kg bags

The product subject to this standard must be packed in bags that comply with the Mexican standard NMX-EE-048-SCFI.

AGRICULTURAL CERTIFICATIONS

bioagricert 
A FOODCHAIN ID COMPANY

AGRICULTURAL CERTIFICATIONS

From the signing of the agreement of the **Workplan for the Export of Avocado to the United States of North America**, one of the points that establishes this plan is that any Packing-Exporter must have a certification and a register as a packer, for such effect annually a Verification Unit authorized by SAGARPA, verifies the installations, the controls that are suitable for carrying out the packing tasks according to the specifications that the Plan itself establishes.

POLLUTION RISK REDUCTION SYSTEMS

DMASS BUSINESS S.A. de C.V., with the interest of sending harmless products to the final consumer, has implemented this system to reduce the possibility of contamination.

What is the Pollution Risk Reduction System (SRRC)?

These are the measures and procedures established by SAGARPA voluntarily to ensure that goods of agricultural, livestock, aquaculture and fishing origin are produced and processed under hygienic conditions, and that the dangers of physical contamination are reduced, chemical and microbiological, through the application of good management practices.

Food and Drug Administration

DMASS BUSINESS S.A. de C.V., is registered with the U.S. Food and Drug Administration pursuant to the Federal Food Drug and Cosmetic Act, as amended by the Bioterrorism Act of 2002 and the FDA Food Safety Modernization Act, such registration having been verified as currently effective on the date hereof by Registrar Corp:

U.S. FDA Registration No.: **12171336342**
U.S. Agent for FDA Communications: **Registrar Corp**

ABOUT OUR CLIENTS

Product of Mexico
McAllen, Tx

ABOUT OUR CLIENTS

The State of Qatar is one of our major consumer/ trading partner of Avocado, Lemon, Mango, Papaya, Pineapple, Litchi and Yaka
 Our Contact: Mr. Kalif Ibrahim

INTERNATIONAL QUALITY STANDARDS

IN HANDLING PERISHABLE PRODUCTS

In DMASS Business we follow the highest international quality standards in handling perishable products.

Rather seeking to have customers, we are looking for Business Associates, so our main interest is to create long-term business, delivering high quality products in perfect condition.

Perishables such as fruit and vegetables require subjected to an appropriate process refrigeration, freezing or deep-freezing, seeking to avoid the growth of microorganisms.

This process is better known as "Cold Chain", this is a suitable succession of logistic processes (storage, distribution, packaging, transport, loading and unloading) with a controlled temperature and humidity.
